Chapter 7

Spinal and Supraspinal Control of Posture and Movement by the Leg to the Muscle Spindles, Rigidity, Spasticity

1. Introduction

[illegible]

2. The well, dizziness and the effect on [illegible]

[illegible]

3. Reflexes below and above the decerebration

[illegible]

4. Experimental dissociation of the leg reflexes

[illegible]

5. Rigidity, spasticity

[illegible]

6. Passive reflexes

[illegible]

Chapter 8

Sensory Discrimination and Integration

1. General sensorimotor principles

[illegible]
